## HISTORY

---

Ouachita College came in answer to the prayers of the faithful Baptist leaders in Arkansas, who for many years had been in most thorough sympathy with the efforts of American Baptists to found and maintain colleges where learning and religion might be developed in symmetrical unity. In the year 1886, when Ouachita College was founded, the Baptists in Arkansas were neither rich nor numerous. They believed in Christian education and they had the courage of their convictions and with little money or property they established Ouachita College, which has meant much to Arkansas.

After much prayer and after the Baptist State Convention had year after year expressed its purpose to establish a Baptist College in Arkansas by keeping an Education Commission working upon the problem for many years, finally at the Convention at Hope, November, 1885, the Education Commission submitted a report which contained the following:

"The Commission recommends to the Convention the propriety of electing at this session of the body fifteen wise and prudent brethren as a Board of Trustees, five of whom shall be a quorum, and this board shall have the power of self-perpetuation, and that it shall be a body politic having under its control the absolute management of the school for the Convention. It shall be the duty of this Board of Trustees to report to the Convention at its annual sessions the material progress, financial condition and workings of the school."

The report was adopted and the following Board elected: J. P. Eagle, A. B. Miller, B. R. Womack, A. J. Kincaid, J. B. Searcy, A. J. Fawcett, J. M. Hart, J. Dunnigan, J. K. Brantley, C. D. Wood, W. E. Atkinson, M. F. Locke, V. B. Izard, W. A. C. Sayle, and A. W. Files.

This Board of Trustees met in Little Rock, December 24, 1885, and considered bids for the location of the college. At the same meeting Arkadelphia was chosen as the location, and Dr. J. W. Conger, an alumnus of Southwestern Baptist University, was chosen as President. The college began its first session September 6, 1886, in the old Blind Institute Building, which had been refitted and equipped for this purpose. In the year 1888 the main building was erected, and the following year the old institute building was transformed into a Young Ladies' Home. This building was burned in May, 1890. The generous people of Arkadelphia immediately raised a subscription to begin the erection of our present beautiful Young Ladies' Home. It was begun

in 1890 and finished in February, 1891. In 1898 the conservatory building, valued at \$15,000.00, was erected. The Mary Forbes Industrial Home was added in the summer of 1906; value of property, \$2,500.00. The President's Home was erected in 1908.

Dr. J. W. Conger, the first President of Ouachita College, served in this capacity for twenty-one years. He gave his heart wholly to the college, and it is certainly true that much of the present prestige and power of the institution is due to his untiring efforts. In the year 1907 he resigned to accept the Presidency of Southwestern Baptist University, his alma mater. He was immediately succeeded by Dr. H. S. Hartzog, who was formerly the President of the University of Arkansas. The faithful labors of Dr. Hartzog left stamp upon Ouachita College. In February, 1911, Dr. Hartzog resigned, and in March, 1911, Dr. R. G. Bowers, an alumnus of the college, was chosen as President. His labors in this capacity began in June, 1911.

After two years of faithful service, he resigned in the spring of 1913 in order to return to the pastorate. Dr. S. Y. Jameson was elected President of Ouachita in June, 1913, and served until January 1, 1916. A notable and praiseworthy achievement of his administration was the liquidation of all the mortgage indebtedness of the institution, amounting to something near \$65,000.00.

Professor H. L. McAllister, for several years Professor of Mathematics and Dean of the College, was elected chairman of the Faculty and was chief administrative officer until the close of the school year, June, 1916.

Dr. Chas. E. Dicken was elected President of the College, January 20, 1916, and assumed active control of its affairs in June, 1916.

If a college is to be judged by the usefulness of the men and women it sends out into the world, the impartial historian will give Ouachita College a very high and honorable place. The financial struggles have been many and threatening; but we believe that our greatest financial burdens are in the past. More and more Christian men and women are realizing that contributions to Christian education are most effective, both in developing civilization, and in advancing and building up the kingdom of God. In June, 1916, Mrs. Florence Wilson entered into her rest, and it was found that she had bequeathed to Ouachita College several thousand dollars for permanent endowment. She was the widow of the late J. W. Wilson, who was a Ouachita student and afterward a very generous member of the Board of Trustees. He himself left \$10,000.00 to his alma mater. Mrs. Wilson's gift is a little more than \$21,000.00. In October, 1918, Dr. J. C. Wallis entered into his rest, bequeathing to the college \$30,000.00 for endowment, and we are praying that these noble examples may stimulate other contributions to the same great cause.

## LOCATION

Arkadelphia is located among the picturesque hills of Clark County, sixty-six miles southwest of Little Rock, on the Iron Mountain Railroad. It is a beautiful town of about five thousand inhabitants, with all modern conveniences. It has a most complete filtered water system, which insures at all times an abundant supply of pure, clear, soft water.

The dominant interests of Arkadelphia are centered upon its colleges and the general environment is distinctly educational and religious. Allurements to fashionable dissipation are not in keeping with its citizenship or social atmosphere, and high standards of conduct and character are not only expected, but required.

The campus is situated on a high bluff, overlooking the Ouachita River, and is within a few hundred yards of the four churches and the business portion of the town. No college has a more beautiful location or more healthful surroundings.

---

## BUILDINGS

The building equipment of Ouachita College consists of six buildings, located in such a manner that each building is a working unit of the whole. The executive offices, library, study hall, class rooms, laboratories, and literary society halls are located in the main, or Administration Building. The School of Fine Arts and the general auditorium are located in the Conservatory Building. This building is connected with the main boarding hall for young women by a covered corridor. The other five buildings, with the exception of the President's Home, are used exclusively for the accommodation of boarding students and teachers. The main boarding hall for young women and the Forbes Industrial Home are presided over by the Dean of Women.

The Forbes Industrial Home was added in the year 1906. It was largely due to the generosity of Rev. W. A. Forbes and Mr. J. M. Adams. It was dedicated to the memory of Rev. W. A. Forbes' daughter, Mary. This home is for young women of limited means, who do their own housework and receive board at cost. It has amply justified the hopes of its founder and annually accommodates about fifteen girls.

## EQUIPMENT

### LIBRARY

About seven thousand volumes, for which a complete card catalogue has been prepared, are at the disposal of the students.

The leading periodicals, dailies, weeklies, monthlies, both religious and secular, are found upon our tables. The library is a workshop in which students are aided and encouraged to make the best possible use of available material.

### SCIENTIFIC APPARATUS

During the last two years much apparatus has been added to the Science Department. The courses in Chemistry and Physics have been enlarged and the laboratories remodeled. One new building has been added.

---

## STUDENT ORGANIZATIONS

### LITERARY SOCIETIES

The Alpha Kappa and Corinnean Societies for the young women and the Philomathean and Hermesian Societies for the young men are thoroughly organized. They meet once a week in their large and elegantly furnished halls and are doing enthusiastic work. These societies are strong factors in developing the literary tastes of their members. Experience in self-government is secured by the constant practice of parliamentary rules. Every student is urged to connect himself with one of the societies.

Secret societies, fraternities, and clubs of all kinds whatsoever, are prohibited.

### OUACHITA SIGNAL

During the past year the four Literary Societies of the College have published an eight-page weekly paper known as Ouachita Signal, incorporated with the Ouachita Ripples, founded in 1889. Ample space is given in this weekly paper for the various activities of the College, and the faculty and alumni often use it as a medium for the expression of their views. The subscription price is \$1.00 a year, thirty-six editions. It is hoped that every patron and former student of the College, as well as our friends at large, will avail themselves of the opportunity to keep in close touch with the College by subscribing for and reading this paper.

### THE OUACHITONIAN

The Ouachitonian is the name adopted by Ouachita College students for the annual publication. It is a pictorial survey of college life from the viewpoint of the student. It is an illustrated history of each year at Ouachita College. The Ouachitonian contains, usually, not fewer than 160 pages, and is beautifully bound, with original design on cover.

It was not started as a money-making enterprise. Indeed, the editors and business manager will be very happy if the books are printed without loss. The Ouachitonian is a book of great

value to the students who live among the scenes described. In later years it will revive sweet memories of classmates and college life. Each student is urged to bring at the opening \$3.50 to subscribe for a copy of the Ouachitonian.

### CHRISTIAN ACTIVITIES

Ouachita College, fostered by the Baptists of Arkansas, stands emphatically for Christian Education. The Bible has an important place in the curriculum and in the class room. Chapel service, a distinctly religious service, is held for thirty minutes every school day, at 9:00 o'clock. Student's prayer meeting immediately before Chapel each day.

### THE YOUNG WOMEN'S AUXILIARY

The Young Women's Auxiliary, a student organization among the young ladies, in affiliation with the women's work of the Southern Baptist Convention, is supervised by officers of its own selection and an Advisory Committee from the Faculty. The purpose of the Auxiliary is to aid in deepening the Christian life of the College and to give training and effective leadership in religious work. It keeps the students in close touch with modern and world-wide moral and religious movements. It endeavors to enroll every student in Bible and Mission study classes. In addition to the frequent meetings of its various committees, the Auxiliary meets once a week for religious exercises.

### MINISTERIAL ASSOCIATION

The Ministerial Association has for its object the promotion of the interests of the ministerial students, all of whom are eligible to membership. At the meetings, held every Thursday evening throughout the year, the programs are such as will prove of lasting benefit to the students. Of course, the work done is in keeping with the devotional, intellectual, and pastoral duties of the young ministers.

### VOLUNTEER BAND

The Volunteer Band is composed of such students as expect to give their lives to missionary work and who are preparing for such work. The band meets regularly for the discussion of missionary topics and for the study of missionary literature. The work is exceedingly helpful to all such students. It also helps to keep alive the missionary enthusiasm of the other students.

### THE CHORUS

A chorus of selected voices is maintained through the year. Standard chorus and operettas are rehearsed. Twice a year the Chorus gives a public entertainment.

### THE ORCHESTRA

The College Orchestra has its weekly rehearsal. It appears frequently during the year.

### THE DRAMATIC CLUB

A club of students from the Department of Expression has its regular weekly meetings and from time to time presents plays.

These three organizations, the Chorus, the Orchestra, and the Dramatic Club, afford valuable practice to the students. They are under the direction of the heads of the departments they represent and are free to the students.

### SUNDAY SCHOOL

The churches of the town maintain well organized and thoroughly equipped Sunday Schools and the students get the advantage of these. The young ladies of the Home and a majority of the young men, attend the Sunday School at the First Baptist Church, where there are large, enthusiastic classes for both. Several members of the Faculty teach in this Sunday School. The organized class movement, as recommended by our Sunday School Board, is well developed.

### ATTENDANCE AT RELIGIOUS SERVICES

Attendance at chapel services is required of all students in the college, except such as are specially excused.

Every student is required to attend divine services at the church of his or his parents' choice at least once every Sunday. Students are urged to connect themselves, either as pupils or teachers, with a Sunday School class.

### MINISTERIAL STUDENTS

The great need of our Christian host today is an efficient ministry. Ouachita College was founded to meet this demand. Every young preacher owes it to himself, to the kingdom of God, which needs his service, to the lost, who wait to hear his message, and above all, to God who called him, to be and to do the very best that he possibly can. He cannot afford to neglect his educational training.

From the very beginning it was intended that Ouachita College should be a suitable place for the education of young ministers. It is not a theological seminary, but it is ready to help every deserving young preacher to get a college education, and the courses in the Bible Department will prove especially helpful. Young preachers who come with the indorsement of their home churches are given free tuition. Our Seminaries give credit for work done in this department.

### MINISTERIAL AID

In addition to the free tuition mentioned above, the Board of Ministerial Education gives some help to such ministerial students as stand in need of help. Contributions are made to this fund by churches, societies, and individuals, and the Board disburses these funds according to the absolute needs of the students. Quite a number of individuals and organizations are undertaking each the support of one ministerial student at from \$12.50 to \$20.00 per month. Such work is both magnanimous and wise, and it will certainly pay large dividends, both to the donors and to the kingdom of God.

### COLLEGE ATHLETICS

Ouachita College stands for clean athletics. The man who has an ideal education has been trained spiritually, intellectually, and physically. We believe the ideal man should have a trained mind, a pure soul, and a strong, enduring body. A college should give proper attention to the culture and development of each. The students of Ouachita College organize themselves into an athletic association, and they elect the officers of the association and the managers of the various teams. This association co-operates with the college authorities in the enforcement of the athletic rules. It is required that the conduct on the athletic field shall be kept free from all immoral practices and profane language. No student who fails to maintain satisfactory class standing will be allowed to be a member of any athletic team.

The President of the college will keep in his office a record of the class standing of every student who plays on any team. This record shall be kept upon a card known as an eligibility card. The grades will be furnished every two weeks to the President by the respective teachers to whom the student recites. When the standing of such student shall fall below the requirements of the college, the President will remove him from the team. No student who does not carry at least twelve hours of college work will be allowed to play on any team. All inter-collegiate games must be approved by the President. The number of games to be played and all trips to be taken by the athletic teams are subject to the approval of the President. Long trips interfering with college work will not be permitted. No student will be allowed to play on any of the college teams until he shall have filed with the President written permission from his parent, or guardian.

College athletics is a part of College life. It should receive its proper emphasis, and every student should reap its benefits. If for any reason it should appear that it is not best for any student to engage in active participation in this phase of college life, he will not be allowed to do so. Cheerful permission will be given to any student and he will be given proper encouragement should he show himself willing and able to meet the requirements.

## GOVERNMENT

It is naturally supposed that every boy and every girl who comes to Ouachita College does so with the idea of conducting himself or herself in such a manner as not to make serious reproof or humiliation necessary. Every student will be given full opportunity to become familiar with every requirement which is made necessary for the proper advancement, management, good name and reputation of the College. If it should appear that any student is unwilling to cheerfully obey the requirements of the College authorities his connection with the College will be severed at once.

---

## GENERAL REGULATIONS

No student will be permitted to enter any class or department or discontinue the same without permission. No student will be permitted to contract debts at stores or elsewhere without the written permission of parent or guardian, together with the consent of the College authorities. Attending public amusements will not be permitted except by special permission from the President. No student may be absent from town without consent of the President. Every student is required to be and to remain in his room after the beginning of study hour in the evening. No smoking will be allowed on the streets or on the College property. Loitering on the streets or about the stores of the town will not be permitted. Literary societies will not be permitted to give other than the regular literary program without permission from the President. No student will be permitted to be absent from Chapel exercises without the consent of the President. Any breakage or damage to college property must be promptly accounted for at the Executive Offices. It is to be understood that each student accepts and agrees to obey these general regulations upon matriculation.

---

## DRESS

Every young lady should be supplied with rubbers, umbrella, and raincoat. Every article in a student's wardrobe should be plainly marked. Heretofore every young lady has been required to purchase a uniform at a cost of \$17.50. The purchase of this uniform will not be a requirement hereafter, though simplicity in dress will be strictly enforced. Expensive dressing will not be allowed.

## SPECIAL NOTICE TO YOUNG LADIES

Every young lady and every teacher is required to furnish her own towels, soap, combs, brushes, napkins, pillow, one pair of blankets, one pair of sheets, one pair of pillow cases, one spread, and one spoon.

All young ladies boarding in the Home will attend all lectures and entertainments held in the auditorium. Students accompanied by teachers may occasionally attend outside lectures.

No young lady boarder will, under any circumstances, be permitted to spend a night out of school, and parents must not make such requests.

Steam heat, waterworks, bath rooms, closets, electric lights, telephone, and telegraphic connections are in the building.

Students will be held responsible for unnecessary damage done to furniture or buildings.

Any student whose moral influence is not good will be dismissed at once.

Indiscriminate correspondence will not be allowed, and parents are requested to limit the number of their daughters' correspondents.

Parents should write cheerful letters to their children. Do not encourage them to visit their homes, as it is a positive disadvantage.

Parents will be notified if sickness occurs. Prompt and kind attention will be given. A nurse is in charge of the infirmary.

No young lady will be permitted to leave for home the last two weeks of the session, unless providentially required to do so, and parents must not make such request.

All letters and packages should be addressed in care of the College.

Boxes of eatables should not be sent. The table is well supplied with wholesome food. We cannot be responsible for the health of students who eat irregularly and without regard to diet.

If students find fault, make complaint, or do not seem to make satisfactory progress, justice to both sides demands that a personal investigation be made.

Much worry could be avoided in cases of dissatisfaction on the part of students and patrons by promptly and kindly reporting same to the President. It is to the interest of the authorities of the College to cooperate with the patrons in securing the best results and this will be done cheerfully wherever possible.

## TO NEW STUDENTS

Young ladies should notify the President upon what train to expect them, so that someone may be at the station to meet them. All young ladies must go immediately to the Young Ladies' Home upon arrival.

Young men, upon arrival, must report to the President's office immediately. Assistance will be given cheerfully in securing suitable room and board. Loitering about town or boarding place and delaying to matriculate will not be tolerated.

All new students should bring a certificate of character and of work done under former teachers. Bring High School certificate.

Students are requested to wear the College colors in coming to College, to facilitate identification. The colors are old gold and royal purple, and will be sent to all students upon request. Committees of students or teachers will meet all trains at the opening of school.

---

## CHEAP BOARD FOR YOUNG WOMEN

There are many young ladies who desire an education who must economize in order to have means sufficient to go to college. Provision has been made for such young women in the Forbes Industrial Home. Young ladies, by assisting in doing the housework, can secure board at from \$8.00 to \$10.00 a month. Each young lady in this home does her part of the work in about one hour a day. This is a great blessing to many. The Home accommodates fourteen young ladies. It has gas for cooking and heating, electric lights, sewerage connection, bath room, and the building is being repaired and refitted for the next session.

Young ladies desiring accommodations in this home should send in application early with \$5.00 entrance fee, before the rooms are taken. The young ladies of this home are under the supervision of the Dean of Women.

---

## BOARD FOR YOUNG MEN

Many of the best homes near the College are open to young men boarders. Usually from two to eight board in a family. Board, furnished rooms, light, and fuel, cost from \$20.00 to \$22.00 per month. As young men enter, an approved list of boarding houses is given them and assistance is given them in securing a satisfactory place. Young men are not allowed to change boarding places without permission of the President.

## OUACHITA-HENDERSON LECTURE COURSE

For a number of years Ouachita and Henderson-Brown Colleges have been combining their lecture courses, and by this means have been able to get much better talent than either school could get alone. The lectures alternate between Ouachita and Henderson-Brown Auditoriums. All the money received from ticket sales is put into securing the very best attractions to be had. Season tickets are sold to students for \$2.50. These tickets usually sell in cities for \$5.00. By this method students are given a high-class lecture course for a moderate fee. Students are required to take a season ticket to the lecture course.

The course for the coming year has been selected and offers special advantages to the students of both colleges.

## EXPENSES

The cost of a college course largely depends upon the habits of a student. Ouachita College is not run as a money-making institution. It has a deficit every year. It gives to its patrons that for which they pay, and a great deal more. From time to time liberal friends donate money to Ouachita College to help meet the deficits.

## WITHDRAWALS AND PAYMENTS

If there is any misunderstanding or dissatisfaction with respect to accounts, or any other matter, write us a courteous letter, and prompt attention will be given.

All bills are due on the first day of each term, and must be paid at that time or made satisfactory with the President. After reasonable time is allowed for payment and bill is not settled, student will be required to withdraw from the college.

All charges are made by the term and not by the month. If a student withdraws on account of sickness by advice of our physician, charges will be made to time of withdrawal. If the withdrawal is for any cause not approved by the President, charges at full rate will be made to the end of the term.

The annual session is divided into three terms. Payment for board and tuition is required in advance at the beginning of each term. The Fall Term being the longest, and the fees being due also, parents will find that the Fall Term bill will necessarily be larger than the bill for winter or spring term. No reduction for loss of time will be made, except on account of protracted illness, and then for no length of time less than one month. No reduction will be made for absence for the last four weeks of the session.

Students in extra branches who do not take as much as fifteen hours per week in the Literary Department will be charged in proportion to the number of hours per week taken.

Any student carrying two or more fine arts studies, for which he pays regular rates, is entitled to one study in the Literary Department without extra charge.

If examinations are taken at other times than during the regular examination periods, \$1.00 extra per subject will be charged each student.

Former students requiring lists of credits will be furnished same upon payment of a fee of \$1.00.

Parents are urged to limit the spending money of students.

## CLASSIFICATION OF STUDENTS

Each student on entering, will be required to submit to the Classification Committee a certificate showing subjects studied, textbooks used, and grades made on work completed elsewhere. Blanks for this purpose will be furnished upon application, and must be signed by the proper authority of school last attended.

Each student, on reaching Arkadelphia, must immediately report for classification.

No student will be allowed to take more than twenty hours of preparatory work. No student will be allowed to take more than eighteen hours of college work.

No student will be allowed to carry less than twelve hours of work, unless a lighter assignment is granted by the President.

No student will be enrolled in any subject until he presents to the instructor a matriculation card calling for instruction in that subject.

No student will be allowed to change his enrollment, except by permission of the President and the instructor concerned.

No credit toward a degree will be given for an uncompleted course, unless the part completed is a teaching unit within itself.

Each student in the Preparatory Department must complete as far as possible the preparatory work before entering upon college courses.

---

## ATTENDANCE

Each student is required to attend the daily chapel services, and also every exercise of the several studies to which he is assigned. At the close of each term a report is sent to the parent or guardian of each student, indicating his standing in each of his studies for the term.

When a student has obtained permission to make a change in his studies he must enroll at the first exercise after his admission to the new course.

No student will be admitted to an examination in any subject from which he has been absent one-third of the term.

Every absence from the class shall be counted zero.

---

## EXAMINATIONS

All classes are examined at the end of each term. No student will be admitted to a special examination until he presents the instructor with a receipt showing that he has paid a fee of \$1.00 for that examination.

In reckoning grades the ratio between the daily average and the final examination shall be as 2 to 1 or 66 to 33 out of a possible 100.

The standing of each student is indicated upon a percentage basis, 100 per cent being perfect and 70 per cent being required to pass in any subject.

To such students a college credit of three hours will be given, provided the subject is not necessary to complete the requisite number of entrance units.

## BIBLE

DOCTOR CROXTON  
DOCTOR DICKEN

The study of the Bible is a part of the regular work of Ouachita College. The department is open to all students, and one year of Bible study (either I or II) is required of all literary graduates. The text of the American Revision of the Bible is used as the basis for class work and discussion, in connection with handbooks, maps and the Library. The work of the text-book is supplemented by informal lectures, designed to put the student into the possession of a first-hand working knowledge of the Bible, to create an interest in Biblical and religious study, and to leave a definite impression as to the unique character of the Bible as a history of God's revelation of Himself to man.

## SCHOOL OF FINE ARTS

---

LIVINGSTON H. MITCHELL, DIRECTOR

Ouachita Conservatory offers ideal opportunities to the music student who wishes to receive a musical education and at the same time enjoy the social, religious, and intellectual advantages of a Christian College. Ouachita Conservatory holds a place of its own among the better conservatories of the South.

Every Conservatory student is required to carry one or more literary studies. The teachers, both in the Conservatory and in the College, will give advice and assistance in arranging a course of study suited to the student's individual needs.

The College Library is open to conservatory students. Many valuable books on musical subjects are in the Library. Among them, Upton's "Concert Guide", "Stories of the Standard Operas", the "American Encyclopedia of Music", and "Grove's Musical Dictionary."

On the reading table are found "The Musical Courier", "Musical America" and the "Etude", three of the leading music journals of America.

The Art Department, and Expression Departments also receive periodicals devoted to their respective lines of study.

### RECITALS

Students are given frequent opportunities to hear good music, and this is one of the advantages afforded our Conservatory students. The members of the Faculty are chosen for their ability as performers, as well as skill in teaching, and recitals are given each session in which all are heard.

The College Lyceum course presents each year concert numbers on its list of attractions, and other high-class musical entertainments are given by visiting artists.

### STUDENT RECITALS

Students are given ample opportunity for practice in public appearance at the regular fortnightly afternoon recitals, the various public recitals, and the programs given every week by the literary societies.

### PIANOFORTE

Modern playing demands that the student have a systematically developed technical foundation, supple arms, light wrists,

and firm, sure fingers responsive to the commands of the will. These conditions may all be brought about by well-guided efforts during the first years of study.

We are convinced that the development of the intellectual and the emotional must go hand in hand with technical progress, and we carefully select such pieces and etudes as are adapted to the capabilities of the students in the respective grades.

As the needs of different students are not uniform, it is impossible to have a list of studies to be followed strictly by all, but the following course of study shows the ground expected to be covered by each candidate for graduation, and, so far as he goes, by each student in piano.

### PREPARATORY GRADE.

### VOICE

ALFRED HALL

RUTH GOODWIN

The only fundamental basis upon which the Art of Singing can be developed is Tone-placement, the Alpha and Omega in singing. No two voices are precisely the same. It very naturally follows, therefore, that a careful diagnosis of each voice is absolutely necessary to achieve satisfactory and permanent results. In the prescribed course which follows, special emphasis is laid upon this most important factor. When the color and quality of tones blend with the student's natural characteristics, a gradual and systematic study of the development and expansion of the voice follows. The choice of songs, too, is a matter of great magnitude; and, in the selection of vocal compositions, infinite care will be taken to meet the demands of the student's peculiar requirements.

#### ELEMENTARY.

Placement of medium voice; open tones, vibration, resonance; diaphragmatic breathing; shaping of vowels; distinct enunciation; poise; studying of pitch and intervals; simple vocal exercises; songs of easy grade and miscellaneous composers.

## SCHOOL OF EXPRESSION

MISS SARAH LOWERY, Director

The Department of Expression has for its object the culture of the individual—culture spiritually, mentally, and physically—a well-trained, magnetic voice; a graceful, easy presence; courteous manners; sincerity of truth. It is self-evident that a strong personality, a cultured, nobled womanhood, is infinitely superior to any tricks of voice or gesture. When one lives the truth and lives it, and can present it effectively to others, he has learned the best possible preparation for the work of life, as well as for the work of expression. We cultivate those qualities of mind and heart which lie beyond all expression, and which spontaneously create its requisite forms.

No ironbound, prescribed course will be adhered to in this work. If any selections named in the curriculum prove not adapted to the individual needs of the student, they will be abandoned and others substituted.

### REQUIREMENTS FOR GRADUATION IN EXPRESSION.

Candidates for graduation in Expression are required to have completed the regular Freshman College work, Physiology, Philosophy, English Courses I, II, III, and V, and Education I, two years of French or German, and to present a thesis under direction of the head of the department. ## ART

MRS. ALFRED HALL

The study of art has in the last few years taken a prominent place in the prescribed course in all schools. People are coming to recognize that the student is not broadly educated unless he has been trained in some degree to see and appreciate the beautiful. It becomes more and more evident that every student can learn to put down on paper or canvass his impressions of it, for drawing is another form of writing.

The aim of this department is to teach drawing and to help the student to say in form and color what interests him.

The annual exhibit of work done by the students is held at commencement time. The students are requested to leave their work for this occasion. Students may enter the department at any time.

The studio is a large, fine room, with good lights. It is provided with casts, geometrical slides, and pieces of pottery.

### COURSE OF STUDY.

Drawing from geometrical slides, simple studies in charcoal and pencil from still life, fruit, and flowers. Design, sketching from nature and still life. Composition.

**SKETCH CLASS.**

This class is held twice each week. Study from the model in all mediums.

**CHINA PAINTING.**

This work is made very interesting in that it is original work. Conventional designs are used by the students, themselves, among their designs. Flower and fruit forms are used for decoration. The kiln is conveniently placed in the studio.

**COURSE IN DESIGN.**

One year. Study of Rhythm, Harmony, and Balance. Simple designs showing these principles.

Conventionalizing natural and flower forms and applying them to practical needs.

**HISTORY OF ART.**

This class is open to all students of the school. Three hours a week during the Spring term.

**COURSE IN PUBLIC SCHOOL DRAWING.**

This course is designed to fit students to teach drawing and painting after public school methods. It includes drawing from nature, still life, block, in charcoal, pencil, water color, and colored crayons; also landscape drawing from memory and imagination and illustration.

There is no course more helpful than this, for the methods must be simple and easily understood, in order that the student may have no difficulty in presenting the work in a class room. One hour a week throughout the year.

**REQUIREMENTS FOR CERTIFICATE IN ART**

The course of study outlined in Art covering a period of four years' study.

History of Art.

All entrance requirements in English and History.

## MILITARY SCIENCE AND TACTICS

J. R. DAVENPORT, Major, Infantry, U. S. A.

Some years ago the War Department of the United States, realizing the helplessness of our country in time of war if required to depend alone upon our regular army, knowing that the real defense of our country would fall upon the shoulders of the untrained men taken from all phases of civil pursuits, began to study the problem of training men for such an emergency without interrupting their civil careers. Looking about for the solution of this problem, the War Department discovered that a number of institutions of learning were maintaining Cadet Corps because of the physical and moral benefits obtained from military training. Recognizing an opportunity, it was therefore arranged to detail army officers as professors of Military Science and Tactics in one hundred colleges and schools apportioned throughout the United States, in accordance with population.

Later, laws were passed creating an Officers Reserve Corps for the purpose of enrolling all civilians who had received sufficient military training to qualify them as officers, and, who did not desire to become officers of the regular army. It was thought that the Cadet Corps would contribute a considerable quota to the Reserve Corps each year. Events proved that the training received in these Cadet Corps was not sufficiently advanced to qualify many of their graduates as Reserve Officers. In seeking a remedy the War Department decided to make the military training at colleges and schools national in scope, more attractive to students, and more efficient. To carry out this plan Congress enacted a law in 1916 creating the Reserve Officers' Training Corps.

The primary object in establishing units of the Reserve Officers' Training Corps is to qualify, by systematic and standard methods of training, students at civil educational institutions for reserve officers. The system of instruction prescribed presents to these students a standardized measure of that military training which is necessary in order to prepare them to perform intelligently the duties of commissioned officers in the military forces of the United States, and it enables them to be thus trained with the least practicable interference with their civil careers.

### THE R. O. T. C. FROM THE STANDPOINT OF THE INSTITUTION

1. The college will find in the R. O. T. C. an opportunity of direct participation in the plans and policies of the War Department, with reference to national defense, and will receive

the stimulus of contributing directly to the solution of national problems.

2. The R. O. T. C. will enable the institution to train reserve tact and channels of communication with the War Department, so that the response of the institutions may be both prompt and well organized in case of national emergency.

3. The R. O. C. T. will enable the institution to train reserve officers of infantry, coast and field artillery, medical department, signal, quartermaster and ordnance corps, military aeronautics, chemical warfare service, etc. These trained leaders cannot be produced instantly when the time of need arises. They must be produced in advance, and they must be produced continually in order that at any given time there may be a sufficient number who will be young and vigorous enough to bear the hardships of war.

4. The officer detailed to the college will become a member of the faculty, thus adding to the teaching force, but in no way complicating the administrative organization of the institution.

5. The R. O. T. C. will also develop in the college an interest in military affairs, and in this will greatly assist in the formation of an enlightened public opinion in this matter among the educated citizens of the country.

6. Many of the courses already offered in the colleges can be effectively used in the training of reserve officers with only slight modifications, and it is believed that in many cases these modifications will add to the interest and effectiveness of the courses for other purposes as well.

7. In order to make the R. O. T. C. work of any institution as little wasteful and arbitrary as possible, every effort will be made to adapt the work in each case to the peculiar resources, tradition and aims of the individual institutions.

### THE R. O. T. C. FROM THE STANDPOINT OF THE INDIVIDUAL

1. The student should join the R. O. T. C., as it will give him an opportunity of making himself fit to fight in the hour of national need.

2. The R. O. T. C. is a federal organization, and will enable the individual student to feel that he is, even during his period of training, participating directly in national service.

3. By membership in the R. O. T. C. the student obtains the opportunity of assuming a position of leadership in time of war.

4. In the R. O. T. C. a man will learn the lesson of discipline, which means that he will learn both to lead and be led and to co-operate effectively with others. These are lessons which are worth learning, whether one goes to war or not.

5. The R. O. T. C. as developed in the future will aim to make every man physically sound and teach him habits of self-

care. No other form of physical training equals in soundness and efficiency that afforded by drill in the open and mass athletics, both designed to develop the mind and body by certain well defined movements. Drill and physical exercise, properly given, will fit the student to endure physical hardships, discipline him in accuracy, punctuality and alertness, insure quickness, precision and the habit of concentrated attention. It will accustom the student to co-operation and teamwork, promote comradeship, and emphasize the spirit of duty and service.

6. By membership in the R. O. T. C. the student has the opportunity of earning a commission as second lieutenant in the reserve.

7. By membership in the R. O. T. C. the student has the opportunity to secure service with the regular army as temporary second lieutenant, and in some cases to earn commissions in the regular army.

8. Students who enter upon advanced instruction receive a scholarship in the form of commutation of subsistence amounting to from \$120 to \$140 per annum, for the last two years of study.

9. Members of the R. O. T. C. enjoy the opportunity of attending summer camps, with transportation and expenses paid.

10. Members of the R. O. T. C. receive uniform, an overcoat, and the use of government equipment.

In 1896, the authorities of Ouachita, realizing the advantages to be obtained by having a military department, sought and obtained a detail here, and agreed to live up to the regulations laid down by the War Department, and from that time to the present, there has been a Military Department in Ouachita College, with a steadily increasing degree of efficiency. We find that there is a contract between the United States Government and Ouachita College, with an army officer serving in a dual capacity, bound in honor to bring his department as near to the state of efficiency the War Department wishes, as possible, and at the same time to do nothing to interfere with the students obtaining what they came to college for—an education; but to assist in making that education resemble that described by Mr. Milton when he said: "I call a complete and generous education one which fits a man to perform justly, skillfully and magnanimously all the offices, both public and private, of peace and war," and to do nothing that will injure in any way the College in the eyes of its patrons, but, on the other hand, to do everything to enhance its reputation and improve its efficiency and value to the students.

As an emergency measure and in compliance with the wishes of the War Department a unit of the Students Army Training Corps was organized at Ouachita College in September, 1918, and was maintained until the signing of the armistice, and then demobilized on December 14, 1918.

The authorities of Ouachita, desiring to continue the military department and recognizing the greater benefits to be de-

## TO TEACHERS

There are many burdens not immediately connected with the class room which fall upon each teacher. These are common burdens and must be equally shared by all. Absolute loyalty to the College regulations, and to the administrative officers is an essential part of every teacher's contract, and no teacher will be retained who does not manifest the letter and spirit of this requirement.

The general conduct and esprit de corps of the institution are essentially influenced by the disposition and character of the teachers, and perfect unanimity in this respect is required. At the Young Ladies' Home there are certain duties of chaperonage and discipline which must be equally shared by the resident teachers. There are no exceptions in this respect.

Daily attendance at Chapel and monthly attendance at Faculty meeting is required.
